| Jan '08 – Jan '09 | <p><u>A.T.G.</u> [ A.I-Alamiah Technology Group (k.s.c.c.) ] <span style="float: right;">Kuwait, KU</span></p> <p>Role: <b>Team Leader / Sr. Solution Developer</b></p> <p>Report To: Product Manager &amp; Project Manager</p> <p>Responsibilities:</p> <ul style="list-style-type: none"> <li>▪ <b>Clients Engagement:</b> in the Analysis and design phase including gathering information understand business process and building models , and software documentations</li> <li>▪ <b>Team leader:</b> (functional specifications documents, story board documents, use cases, UML models and the ERD) ,manage tasks and resources as assigned by Technical manager or project manager, Follow up a team of developers to meet our biz requirements and meet our fake deadlines.</li> <li>▪ <b>Develop and build:</b> component-based applications in a internet/intranet delivery environments, including introduction of an application layer, modeling techniques, component and object-oriented design, complex algorithmic coding, and systematic approaches to application integration.</li> <li>▪ <b>Consultancy:</b> Assist and report technical issues related to MS Dynamics GP,CRM , and MS Sharepoint. And write advanced TSQL Scripts. Assist in creating Reports using MS RS which operate MS GB db.</li> <li>▪ <b>Reconfigure/Optimize</b> applications in order to increase the performance or enhance the user experience. Otherwise work closely with the developers team and assist them with creating a coding standard in order to meet the optimum performance “as long as we can ;)”.</li> <li>▪ <b>Conducted presentations</b> for other project teams and chair routine meetings to keep the overall project synchronized and show the others what we have on hands and still what we can carry from others. Write Whitepapers about new technologies and train and follow company trainees.</li> </ul> |
| Jan '06 – Dec '07 | <p><u>AGiLiENCE</u> middle east: <span style="float: right;">Egypt,C</span></p> <p>Roles:</p> <ol style="list-style-type: none"> <li>1. <b>Team Leader</b> (Team of 7 programmers, 1 web designer, and 1 tester)</li> <li>2. <b>Solution Developer</b></li> </ol> <p>Report To: Technical Manager</p> <p>Responsibilities:</p> <ul style="list-style-type: none"> <li>▪ <b>Clients Engagement:</b> OOP A &amp; D.</li> <li>▪ <b>Team leader:</b> manage tasks and resources as assigned by Technical manager or project manager, Follow up a team of developers.</li> <li>▪ <b>Develop and build:</b> component-based applications in a internet/intranet delivery environments.</li> <li>▪ <b>Participate</b> in submitting solution recommendations, test, debug, and deploy developed solutions.</li> </ul> <p>Role:</p> <p>Report to: Project Manager/ Team Leader</p> <ul style="list-style-type: none"> <li>▪ Develop Web solutions following different architectures and using different web development techniques.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

- Developing reusable Components “.Net classes and server controls”, also some reusable scripts like javascript classes.
- Searching and using new technologies if useful.
- Solidified my software design principles and application architecture.
- Learned the practical significance of OO methodology and process tools such as UML.
- Performed code walkthroughs with other developers.

Dec '04 - Jan '06 [AL-Awael \(mooga\)](#) .: Egypt, MH  
 Role: **Web Developer**  
 Report to: Team Leader.

- Develop, test, and maintain Web applications following different architectures and using different web development techniques.
- Develop web services, Implement DBs “ MS SQL and MySql”.
- Customize/Develop open source web applications using php.

Sep '05 - Nov '05 [S.W.T: Solution Developer \[Part Time\]](#) Egypt, C  
 Report to: Team Leader

- Assist in the Project Analysis and Design, and make recommendations.
- Design/Implement the ERD.
- Optimize and enhance the user experience.

Jan '06 - Feb '06 [ElectronicSols : Solution Developer \[Part Time\]](#) Egypt, C  
 Industry: Hardware & Software

- Develop web applications.

## Key Projects

Feb. '09–May '09	<b>IBM Filenet Workplace.Net (KNPC)</b> <b>Vendor:</b> EBLA <b>Role:</b> <b>OOAD and Developing.</b>	<b>web-based App</b>
May '08- Aug'08	<b>SAFAT-Holding Co.IMIS [Investment Management Information System]</b> <b>URL:</b> Intranet Application <b>Vendor:</b> ALALAMIAH [A.T.G.] <b>Role:</b> OOA & D include: Meet the client and understood and documented his biz requirements, wrote Internal Technical Documentaion and determined Biz & Tech. risk. After that Develop , lead the team work, deployment. <b>Overview:</b> IMIS Intranet Application Manage and Monitor all investments which include monitor cash procedurs,cash flow ... within a dynamic workflow and balance sheet analysis with integration with BI system. In addition the sys Athenticate users based on Active Direcorey then Athurize them using IMIS.	<b>n-Tier Web App.</b>
Apr'08–May'08	<b>Kuwait Education Ministry Mini-Quiz</b> <b>Vendor:</b> ALALAMIAH [A.T.G.] (alone) <b>Role:</b> <b>OOAD and Developing.</b> <b>Overview:</b> The Application controlling OS display settings using OS API, The output of the application appear into two screens, the primary display device allow the administrator to manage the race and the rest of display devices show questions and all related info of a specific team.	<b>Win-Based App.</b>
Oct '06-Dec'06	<b>Suadia Education Ministry–Main Publish (Teachers Affairs, Schools &amp; Teachers Portals) n-tier</b> <b>URL:</b> http://www.ksa-moe-ta.net <b>Vendor:</b> AGiLiENCE me (team work of 8 programmers) <b>Role:</b> Meet the client and understood and documented his biz requirements. Analyzed , Designed and developed the application. Assisted the developer team so we have might the fake deadlines and met our objectives. Developed the required MS sqlserver Functions, Jobs and Linked servers to exporting services, developed required http handlers. <b>Overview:</b> the main target of this enterprise application to override the Ma3aref Applications by providing three portals, and validated data through many biz cycles.Statistics of main publish applicat: Full auto male for hi-school scores 2225,Full auto male for teachers hiring process 2004 ,Full auto male for teachers controetg process 2005,Full auto male for teachers transfer 2004/2005,Full auto male for teachers data amocet 2006	

## Key Projects(Cont.)

---

- Jun '07 - Present      **Hospitals Information management system**      **3-tiers web App**  
**URL:** <http://www.agilience-me.com/hmis>      **Vendor:** AGiLiENCE me (team work of 7 people)  
**Role:** Analyzed , Designed and developed.  
**Overview:** covers huge range of administrative and operational needs of Big hospitals. It is a modular end-to-end Hospital Information system that provides relevant and instant information across all activities and operations of the hospital to support informative decision making for patient care, hospital administration and critical financial accounting, in a seamless flow.
- Oct '02 - Apr '03      **Parallel Port Interfacing ( Robot )**      **Desktop App/Hardware**  
**URL:** [Demo\[ameen.rr.nu/projects.htm\]](http://ameen.rr.nu/projects.htm) **Vendor:** Menofia Uni – Science Collage (team work of 2 students)  
**Technologies/Tools:** Software[VB6 and MS Access], Hardware[PC, couple of AD convertors ICs, Heat Sensors and magnetic switches]  
**Role:** I'm a physicist before moving to this career, at this time the programming languages was just a tool on my hand and my main target was proving some solid state physics and theoretical theories, and playing “useful game” and flirt the applied physics. Anyway I participated in the developing an application using some activeX components to read the digits from the interface circuit via the parallel port then response to it with appropriate action, and design and Implement the interface electronic circuit.  
**Overview:** Designing/Implementing an electronic circuit which connect to the PC's parallel port, and allow the PC to read some real data from the environment “ like Radiation, Heat... ” and log it then response with appropriate actions by opening/closing sequence of magnetic switches.
- Dec '04 - Feb '05      **Genius Generation**      **3-tiers WebApp**  
**URL:** [click here](#)      **Vendor:** Alawael (team work of 4 people )  
**Technologies/Tools:** MS VS v7, MS SQLserver , C#,ASP.Net, javascript.  
**Role:** Participated in Designing and Developing.  
**Overview:** School Management System

## Other Projects

---

- HR mainling system which send private mail each month and integrated to slot device to print private invlopes. Using MS Reporting Serive 2003.
- Credit Hours Management Sys.( <http://www.codeproject.com/cs/library/icms.asp>) Analysis and Developing within a team work.
- Electors Advanced Search Engine (Desktop).- Developing
- ElectronicSols website Fitkar Inc. <http://www.fitkar.com> developing.
- Almajd TV for Children <http://majd.mooga.com/> - participated in the developing
- Data Exporting ( export data from MS Sqlserver to MS Access\Excel using MS Linked servers ).
- Images Manager ( Upload, resize, auto thumbnail ).(web app.)
- Page Generator ( Text Editor with my Images Manager ) -Anti-Spam Image ( Images unreadable by Computer and readable for humans ).(server control)
- Simple Online Quiz ( web app.) (<http://www.codeproject.com/aspnet/IntegratedQuiz.asp>) and Guestbook (XSLT & XML) ( web app.), News Marquee & progress bar (server control) <http://www.codeproject.com/aspnet/progressBarcontrol.asp>

## EDUCATION

---

- 2003      **B.Sc. in Physics [D: 72%]**  
Menofia University - Egypt
- 2004      **Diploma in Computer Science**  
CompTx Institute ( IBM-Alexandria)  
**MCP Exam ID 299**
- 2004      Designing and Implementing Databases with Microsoft® SQL Server™ 2000 Enterprise Edition  
**MCP Exam ID 319**
- 2005      Developing and Implementing Web Applications with Microsoft® Visual C#™ .NET  
and Microsoft® Visual Studio® .NET

## Skills [keywords]

	Level	Experience	Last Used
C#	Expert	-More than 2 years	-1 month or less
ASP.Net,ASP[ classic ]	Expert	-More than 2 years	-1 month or less
MS SQL Server 200,'05 and '08	Expert	- More than 2 years	-1 month or less
<b>VB6</b> , php and mySQL	Expert	-More than 1 years	- More than 2 years
Web and Windows Services	Expert	- More than 2 years-	- More than 6 months
XML & XSL/T	Expert	-1 year or less	-3 months or less
Object orineted JAVASCRIPT ,jQuery, Ajax & cross browsers computability	Expert	-More than 3 years	-1 month or less
Desktop app developing,PC Ports interfacing & OS API Hooking	Inte	- 6 months or less	- More than 1 year
MS Reporting Service	Expert	-1 year or less	-1 month or less
IIS Configurations & Production Servers configrations	Inte	- More than 2 years	-6 months or less
